Mills Enthused With the Cuban Question.

HE WILL ADDRESS THE SENATE

Conference Report Recommitted by Unanimous Vote of the Senate.

Washington, March 23.—An unexpected climax to the Coban dollate was reached in the senate today when, on motion of Mr. Shorman, chairman of the committee on foreign relations, the Cuban resolutions were recommitted to Cuban resolutions were recommitted to the committee. The vote to recommit was unanimous and without this formality of a rollcall, representing a general conceasus of opinion that the committee who proposition hat has be uvergous the opposition that has delivered by the last of the resolution.

Then the general the motion to recommit the eshould so change the resolutions as the uvergous the opposition that has delivered by the last of the resolution. taneous with this action Mr. Mills re-

fruitless contest before the Kentucky the senator's desk was the moss mann-moth and elaborate floral design ever brought to the senate, rising twelve feet from the floor and overhanging the desks of Senators Walthall and Vest, on desk of Senators Walthail and Vest, on either side. The main design represented the coat of arms of Kentucky, with two lunge dolls clasping hands as the central figures, recound which was worked the state motto. "United we stand, divided we fail." Above this was a large horseshoot of a France and Pearle roses, while below and around ware great theaves of oak leaves and lilies of the valley. The whole was topped with wide apreading hranches of American beauty roses. The tribute came from Mr. Blackburn's senatorial associates. Several other large designs were from personal friends.

Mr. Blackburn entered the chamber chortly after the session opened, and was warmly greated by his session destand. In presenting petitions from Edward Everet Hale, Julia Ward Hown, the faculties of Yale and Williams calegos, and many distinguished public men and secentials, Mr. Gallinger showed the heavy mortality from pulmonary discasses and mred that the government.

When Mr. Sherman brought forward the Ouban resolutions there was an animated debate as to securing a final vote, Mr. Onlown, in charge of the legislative appropriation bill, said he could not give way for an indefinite extension of the Caban debate to the exclusion of appropriation bills. Mr. Sherman responded that the committee desired a vote, and he thought it remarkable, with the war proceeding in Ouba, that the question could not be speedily acted boom.

Mr. George of Mississippi epoke in opposition to the resolutions.

At 2 o'clock there was a lull in the speeches whereupon Mr. Sherman sought to secure a vote on his resolution to recommit the resolutions to the conference committee. A vote was about to be taken, whun Mr. Allien offered a speech.

Many senators urged bin to wait, as the Sherman motion would dispose of the waited on going on and the vote was deferred.

International headquarters is perfectly aware of the resolutions which underlies the whole question and make it impossible for Commander and Mrs. Booth to continue under their orders."

The leaders of the new movement claim the Loudon officers are playing a trick. That they talk reconciliation to prevent many American officers from leaving the Salvation Army to join in the new movement.

At the Fourteenth street headquarters colone Eadie received a telegran from London on Sunday saying that the orders to bid farewell were not the result of anything he may have done as an officer in the army. Colonel Eadie and there seemed to be a sentiment prevailing, for which there was no reasonable excess, that he had been a distorting element in the army. He did not say why he had been recalled. He elated, however, that he should be here to attend the grand reception in Carnegie hall to the Booth-Tuckers. This meeting has been postponed a week until April 7th, a cablegram having been received which says Commander Booth-Tucker demonstrate and returned to South-Appeter. The question of the advisability of capital punishment is being agitated in Switzerland at the present time. Twenty-two years ago capital punishment was abolished by the Swiss, although the individual cantons were given the privilege of reviving it at any time. This, however, has not been done rave in one or two instances. But now an increase of murders has revived the question, and its decision probably will be referred to the people. If the argument based on the increase of murders is considered, it may be found to wor ways, as follows: Under a system prohibiting capital punishment, murder has increased in Switzerland; therefore capital punishment should be revived But in the United States, where most a the commonwealthe inflict this punis ment, the percentage of murder to population also has greatly increased in recent years; therefore apital punishment should he abolished So it will be seen that the arguhere. So it will be seen that the argu-ment is like a two-edged sword—it cots-both ways. Perlings if the Swiss will investigate the question closely, they will find that the increase of the nurder rate at the present time, in all lands and under all systems, is merely a phase, a symptom or an effect of the wave of disquiettule and unrest which now is sweeping over the civilized world. and if they do not learn that this is the case, they may at least, look with suspicion on an argument which in one country appears to call for the abolition of capital punishment and in another seems to demand its perpetua-

The conduct of Spain towards Cuba is and has long been repreheusible, and the latter deserves the rightful republic in its struggle for self ant but in extending this we should certainly not go beyond the bounds of established usage between nations, as proposed by the Texas senator.

proposed by the Texas senator.
The Repulsions is decidedly in favor of the resolutions which have been before congress, providing for the usual recognition of a state of beligerency, but when these are adopted it believes that engress will have done it which in that congress will have done its duty i the premiees and that responsibility for for ther action should rest with the ex-ecutive department until new develop-ments may cause a demand for further

legislative action. * If Senator Mills' ideas are adopted a war with Spain may be reckoned among the certainties, and while there is no reason for avoiding such a contingency should it be necessary, it is certainly uestionable proceeding to go hunting Texas senator.

If you don't read the papers, you don't get the news. The writer learns from the Clovis Herald that "an effort had been made" to have him deliver an address recently in that place. Probably the Herald is right, but the effort had not traveled as far as the table at which we sit and write, at the time when we read about it. Still, it is fair to state that the freight train from Clovis has not yet arrived.

It is said that the girle in the Oaklan It is said that the grite in the Oakhard high school are agitated because of a galvanometer, used in the institution, whose conclive needle vibrates at the approach of a corect. The girls agitate themselves mindly. If the people whe look on their fair forms cannot toll whether or not they are corrected, they are more caulious in the use of the mainting for garment) than are the majority of the anything-to-be-squeezed sex.

"A silly girl asked an exchange what was good to make her hands white, and the cruel man replied that; she would sonk her hands well in disk water three times a day they would soon become white, while her mother's health would doubtless become very much improved. — From another columns.

Give the girls a show, brettern Those who want white hands are no change.

Give the girls a show, brethren. Those who want white hands are not necessarily silly, nor are all whee girls forever found with a dish cloth in their hands. It is right for the daughters to help their mothers, if the mothers need help, but a slouchy domestic with black hands is not necessarily the highest type of feeriminity. We talk a great deat of "rot" along this line, saryway. The man must be singularly unobservant who has not seen hashands of yours women who play the housemaid and the lady with equal success. They do the housework and they perform the social functions, and they are ladylike in either role. They are in the apinion of many men the very highest type of womanhood—those who can turn from the dishest to the plano, and be cultured women in either case. We tender our respect to the "silly viel" of the foreguing quotation. If the washing of dishes is within her life work, she is just right to wish to do it and at the same time keep white hands for those she loves beet.

matter. The people of California will not doubt the truth of the latter assertion. But if there had been any question of the divisability of making a change in the method of election, the recent fisce in Kentucky should have pretty nearly settled it. The Kentucky episode call key round by or a change in the method of election, the reverent fisce in Kentucky whould have pretty nearly settled it. The Kentucky episode call key round by or a change. Yet it is better than to have a seat in the United States senate bought with corrupting gold, and all citizens know well enough that that has been done before now. It is not so certain that the grant and the corrupting gold, and all citizens know well enough that that has been done before now. It is not so certain that the joint resolution will pass as it is that it should.

AN EDITOR'S VIEW OF THINGS. His Opinion on Low-Necked Dresses and Bloomers From the Coutral Guard,

Proud the Central Guard.

At a recent timeafrical entertainment in our city we sat behind a young lady, a visiting stranger. She was a very beautiful girtunger. She was a very beautiful girt, well developed, possessing a volupturous form, and leatures that a liebe might cury. She attracted marked attention, not so much by the charms of her person as by the peculiarity of her low-necked drees. Sach was the brevity of the garment that both shoulders were exposed gu at times one could see under the armpits, while the V-shaped bodies of possed the back below the lifth rib, and the front view would make a braren status blash. Yet the garment was considered a full avening opera castume and up to the requirements of fashionable society. She was admired and even envised. If a girl in bloomers had entered the opera house people would have been horrlind. It makes a difference in society when bud is one exhibition. They are not shocked at a low-necked drees, provided it does not go be low the ribs: but society is horrlind all bloomers, although no limbs are exposed. What is needed in this country is a lart to prevent women from expositing taskes up to their hips. When people go to a show they don't want time attraction on the stage eclipsed by the "living pictures" in the andience.

The effort to freeze a young lieuten-aut out of the regular army because he ant out of the regular army Decause me simple dilicer, who ranks in the army simply as a private, reminds the Times-Index of an Incident characteristic of army lite and morals which occurred in Arizona several years ago. A captain married a woman with whom he had been living without logal sanction, charges were at once preferred and he was continuatified for conduct unbecoming an officer and a gentleman and his dismissal from the service ordered. According to the Wesl Point military othical code it was not conduct ambetoning an officer and a gentleman to live with the woman without sanction of church or state, but the moment he conferred upon his mistress the rights of an honest weman he became grilly of conduct sufficent for his conviction hy a court martial. President Arthur happened to entertain plain civilian moral views and set aside the findings of the military tribunal and ordered him back to his command. The Matter of Goodfellow's Labor ers in a Fair Way for Settlement.

The City Trustees met in adjourned session last night. President Craycroft was in the chair.

The contract with the San Josquin

Electric Company for lighting the city for the ensuing year was formally com-pleted by the signatures of the chair-man and clerk in behalf of the city. nan and cierx in behalf of the city.

Then came the Valley railroad fran-,
shase. Clerk Shanklin read the draft of
ordinance. The grade of the rail of street was fixed four-fifths of a foot

Q street was fixed four-time of a look below the official grade of Mariposa street at its intersection with Q. The franchise provides that the work on the road in the city shall begin within six months. The board further within six morties. The board further reserved the right to annul the francise it at any time after the completion of the road it is not operated for a norical of sixty days. It is also stated that the franchise, rights and privileges are subject to the ordinances of the city heretore and hereafter emacked regulating the speed of trains, the guarding of crossings and the safety of the citizens generally.

The ordinance granting the franchise was then adopted without a dissenting vote.

was then adopted without a dissenting vote.

The trustees had considered the advisability of atipulating in the franchise that the railroad company should place electric lights at the street crossings and that the roundhouse should be located within the city limits. The propriety of this course was not considered plain under the circumstances, however, and the provisions were not incorporated. The franchise sait was passed is agreeable to the railroad people.

JAMES O'NELLS. TORIGITA

James O'Neill appears in his powerful version of Dumas' 'Montu Oristo.' It has been said so often that it is now a recognized truth that Mr. O'Neill is the only actor in this country who can set the part of Edmund Dantes in the spirit in which the author wrote it. Although the work of Charles Fletcher, the originator of the part, was greatly commented on a this time, the same writers who praised him admitted when seeing Mr. O'Neill's performance that they were at a loss to find words that could do justice to his masterly portrayal of the greatest romantic role that ever was written. Mr. O'Neill and 'Monte Cristo' have delighted the people of the United States for more than ton years, and in that time Mr. O'Neill has acted his part 300 times without missing a single performance. The announcement of his engagement is more than likely to test the capacity of the house. The play not only fascinates the speciator by itse extraordinary dramatic charm, but it tells the story of human perseverance and narms for Mr. O'Neill that will make him humortal wherever the actory of "Monte Gristo" is read or told.

JOAQUIN MILLER.

The Poet of the Sierras" Will

Lecture in Fresno.

At last arrangements have been made whereby the people of Fresno will have the opportunity of sceing Joaquin Miller, the famous "Fost of the Sierras" and of the western states, and hearing him lecture next Saturday evening at the Adventiat church. His subject will be "Lessons Not in the Books." Joaquin Miller is California's own poet. His pooms are familiar to every household, and his name is assoniated with the flowers, the brooks and the mountains. His recent poem, "Columbus," is premomend by the London Atherman in point of power, workmanship and feeling as first of all poems written by Americans.
Joaquin Miller is a success as a plat-

ing as hret of an flocus whether of Americanis, Joaquin Miller is a success as a platform speaker. He is instructive, entertaining, poetical and elequent. In his flecture he renders several of his favority noems. A large andlence will great him Saturiay evening, as the clutch will seat at least 1000 people. Tickets will be on sale Wednesday. This paper will amnounce the various places of sale. The admission will be 50 tents downstairs and 25 cents to the gallery.

METHODIST REVIVAL.

arge Congregations Attend the

Meeting.
Entron Republican:—The subject of Enron Republican:—The subject of Evangelist Johnson's Sunday morning sermon was "They say and do not." People said when he closed, "That was a good sermon." He showed clearly many of the hypornisies in social, publical and business life as well as in religiou. The report that Rev. Johnson has condetuned any real Cirictians is an error to say the least of ft. He commends real Christians in what denomination found, and severely condinuns hypocrisy wherever found; but the way in which the contrast is brought out between the real and the sham Christian is very clear and striking.

inc. large unwher of scekers manifested a desire for the good life during the services of Sunday. The meetings are amounced for manther week. Tuesday night is for men only. Last night the subject was "Now is the accepted time," which was presented with vigor and carnestness. A number asked for prayers and four came forward.

other routine matters the board went into executive session.
Yesterday afternoon the teachers of the city schools healt their regular weekly meeting. The matter of their pay for the week during which the schools were adjourned on account of the diphtherla scare was considered. A motion was made and carried declaring it the sense of the teachers that they should have full pay for the weak's efforced vacation. It was declared by them that they consider themselves entitled to the money and that the board is bound by law to draw their month's warrants in full.
The motion was carried without a dissenting vote, and there were only two or three teachers who did not vote.
George Congrave, principal of the C street school, was delegated to communi-

society is to meet every year. The matter of a name for the society provoked considerable discussion. Three were suggested: The San Joaquin Valley Medical Society, the San Joaquin Valley Medical Society, the San Joaquin Valley District Society and the Central District Society. A vote resulted in the selection of the first named.

On motion of Dr. Perlint a resolution was passed adopting the recent resolution of the Sacramento society in the matter of fees for life insurtance examinations. The resolution deprecates the lowering of the fees. A communication was road from Dr. Parkinson, publisher of the treidental Medical Times of Sacramento, in which he offered to publish the proceedings of the meetings of the organization. Upon motion the Times was made the official paper of the 2-ciety.

This committed the business of the

organization. Loop mound the rimes was male the official paper of the suciety.

This completed the business of the forenoon action and the society proceeded with the program which had been arranged for the meeting. Dr. J. B. Rosson read a highly interceiling paper on peritositie. He gave several of his experiences in the treatment of the disease. Dr. Dann followed with an able paper, "Thoughts on Anesthesia," The noon hour by this time arrived and an adjournment was taken till 1.30.

The afternoon wellon opened with the reading of a paper, "Tho Backlus of Tuberculosis — Methods of Examination," by Dr. Sterman of Morreel, Dr. Taggart followed on "Malaria, Its Treatment and Sone of its Complications," "Tyrgian and its Control," was the subject for a paper by Dr. Alken. Dr. Miller of Hanford one on "Authoxine in Diphtheria," Dr. Miller stated that he had had avorable results with the new discovery.

The papers were all of merit, the sub-

had isvorable results with the new discovery.

The papers were all of merit, the subjects in all cases being well handled.

The report of the committee on constitution and by-laws was next taken up, and after some discussion and anaendments, were adopted.

The society will meet semi-annually, in March and October. An adjournment was then taken till the evening session.

had Secretary Olivey before it and asked
him questions concerning the treaty for calciums of British scalors against the United States for seizures in Bebring sea. The committee sometime ago amended the treaty in some minor particulars and reported it to the senate. It had not been reformed back to the committee, but it is prohable that such a request will be made when thelecate is next in executive gession. In order

a request will be made when thesenate is next in executive session, in order that changes suggested by Secretary Olivey and members of the committee may be made. Although there are not now pending any chains of American seeders against Great Britain, the amended treaty will provide that if there are any such they may be considered by the committee. Other forcigm matters were discussed with Mr. Olivey, although it was supposed at first that his visit had some reference to the Cuban situation.

Of Eighteen Men at Work But Four Escaped.

Dublis, Pa., March 23.—A terrific explosion of gas occurred at the Berwind White shall in the eastern limits of this city today and fourteen miners were killed. The mine is a new one, the company having been opening it up, working crews in shalls to push the headings out in various directions for the hig work later on. Eighteen men wint on at 7 o'clock this morning, fourteen going into the north heading, and four in the south heading. About 10 o'clock the latter felt the shock. A few minutes later the line bose warned them to get out as soon as they could. They were hurrically taken up in a case. As found that the explosion in the north heading was so ferrific that some bodies were mutilated almost beyond recognificon. Nearly all the bodies had been found at 1 p.m. and brought to the foot of the shaft.
